... We all worked hard to get to this day, and our work did not go to waste. Most of us will agree that TLA was a perfect place to foster our minds and bodies in this critical learning phase. I have learnt so much – my field, my interest, myself and so on.

To everyone who touched our lives, we say ‘thank you’. To our parents who stood by us no matter what. To our lecturers who tried to instill in us a passion for learning. To our friends who helped us decide what path to take during study sessions, and everything in between. Without each other, there would be no purpose to being here. Thanks to all the loving, kind people I met during my time in TLA...

Ms Tan Chew Fong
Diploma in International Freight Management (Aug 2012 Intake)
How Our Graduates Benefited...

Winner of Best Achiever Award for Diploma in International Freight Management (Sep 2015 Intake)

"As a graduate in Economics, I was new to Supply Chain. When I first started out, logistics meant shipping and transporting goods worldwide. The thought seems easy? But in fact, behind it comes many unforeseen challenges that I only realized when I got on the job. The complexity is due to different country regulations and procedures...."

Ms Tay Ming Li Clara
Winner of Best Achiever Award for Diploma in International Freight Management (Sep 2015 Intake)
How Our Graduates Benefited…

“…This course helped me in understanding how one should manage the warehouse, project management, Incoterms, legal as well as the management of the business. I also learnt the liabilities when acting as an agent and how to handle the heavy responsibilities to better service my customers.

It certainly helped me gain confident to pitch for projects and initiate conversation during seminars and gatherings. Without the tips from the lecturers and my fellow classmates, this learning journey would not be enjoyable and smooth…”

Mr Goh Kian Tat
Diploma in Integrated Logistics Management (Mar 2012 Intake)
I appreciated the diploma programme as I gained a lot of knowledge other than warehousing. Furthermore, I have improved my warehouse knowledge. I am equipped to coach staff on storage replenishment skills, FIFO and put away arrangement. Through enhanced knowledge and skills, I have improved my work productivity and teamwork amongst colleagues.

“Jerald Lim, Supervisor of Song Fou Chian affirmed the change in Fou Chian after attending the Diploma program: I see positive and evident changes in Fou Chian’s attitude towards his work and his colleagues. He has become more positive in managing work challenges and takes initiatives and direct action to resolving matters immediately.”

Mr Song Fou Chian

TLA Diploma in Integrated Logistics Management (R37 – June 2014)
Mr Ng Gim Guan
Graduate of Advanced Diploma in Supply Chain Management, R28/04-2014

"... I wanted to express my deepest appreciation to TLA for giving me an opportunity to obtain the Advanced Diploma in Supply Chain Management. At the same time, I wish to extend my sincere gratefulness to all our lecturers who have given their time and effort to share their knowledge. On behalf of my class, I thank all the lecturers who have effectively guided and coached us..."
Mr Lee Ping Xuan
